

To the Specification:

[031] In a first embodiment of the present invention, the standard cleaning solution is SC1, wherein the proportions of H₂O:H₂O₂:NH₄OH fall in the range of [[1]]4-80:1-5:[[4-80]]1, i.e., for every part of [[H₂O]]NH₄OH, the solution contains 1-5 parts of H₂O₂ and 4-80 parts of [[NH₄OH]]H₂O. In one aspect, the proportions of H₂O:H₂O₂:NH₄OH are [[2.1]]80:3.1:[[80]]2.1.

[032] In a second embodiment, the standard cleaning solution is SC2, wherein the proportions of H₂O:H₂O₂: HCl fall in the range of [[1]]4-80:1-5:[[4-80]]1. In one aspect, the proportions of H₂O:H₂O₂: HCl are [[1.3]]80:2.2:[[80]]1.3.
